

Winter 2020 Newsletter

JGR Training

New enrolments Throughout Autumn, we have enrolled 6 learners onto a training programme to complete a Diploma in their occupational route and we have also enrolled 7 new learners who will be completing an apprenticeship in Management.

We are very excited to see our learners' progress onto higher qualifications and also receive promotion through the completion of their apprenticeships. We look forward to working with another training company, by supporting their own assessors through management apprenticeships.

Achievements Throughout Autumn, we have had 6 learners achieve their Apprenticeship Certification.

News We have awarded the Learner of the Season based on their commitment, motivation and excellent focus on their qualifications, while experiencing personal challenges during COVID.

I became Matthew's Assessor last year. He'd been making steady progress but was very keen to move along. From the outset Matthew was extremely enthusiastic about the course. He manages a very busy team in a stressful sales environment and it is difficult for him to find time to do the ILM course at work and completed many of his assignments by hand. Matthew and I met regularly at Autobahn and then we were hit by the Covid-19 crisis. Matthew was moved in and out of furlough however we spoke regularly and Matt continued to email me work. This extra effort on his part meant that he completed the entire framework for his Team Leader Award. I am really pleased to say that Matt has now started his ILM Diploma in Management with us and even though he is still facing the same personal and professional challenges Covid brings us he has remained positive and engaged in the course.

News Our very own assessor has been shortlisted for the Practitioner of the Year at the Apprenticeship Awards Cymru 2021. Good luck at the Awards Ceremony in April.

Stay safe.

The team at JGR Training.

Funding Opportunities

We are offering fully funded management apprenticeships to employed individuals.

If you are an inspiring first line or middle line manager and would like to experience the benefits of undertaking an apprenticeship, why don't you give us a call to discuss.
